Erdogan Simulator 2015. Gotta have Sisyphus... the one who got the ball rolling on these games (pun completed intended and yes, no effort was made either). What we have

PAYDAY 2 - simulator DLC (pay for buy game, pay for play game, always pay for new DLC)

OVERPOTATO's The Walking Dead - (totally scum, all money spend to CGI movies, trailers, no to game, buy s\*\*\* game by price AAA game, get potato where need pay money for play game) i think he wanted create new simulator DLC, did not work out! Game closed & deleted from steam, consoles versions canceled.

Overkills\Starbreezee - please don't come back to game industry. Happy defolt for your studio!. It's kind of like Skyrim but it has tiles.

10V10. Phew! After (what I consider to be) the utterly dreadful and drab second LC episode, things are mostly back on track with this one.

It's not clever or original like the 1st one, and has almost none of that episode's quirky charm. But it's a solid HOG, with vastly improved graphics over both the earlier episodes, no problems running in HD, and decent (if unoriginal) puzzles. Also, I didn't turn the music off; so it obviously wasn't completely irritating like some HOGs seem to get away with.

Some 'flaws' in the HO puzzles, though. A shuttlecock is labled as a 'birdie'. A 'snowdrop' turned out to be a sunflower. And using 'helm' to refer to a ships wheel was a bit obscure. Now; these may just be terms I'm not familiar with, or maybe just odd translations. Completely threw me, anyhow. And when there are quite obviously two books in a scene and only one counts.. irritating. (There are other examples, but I can't remember them now.)

Decent bonus chapter, too.

Recommended if you enjoy HOGs; this fits right in with most of them. Not recommended if you are looking for anything original, challenging or particularly engaging.

I short; a fairly good, standard HOG which, if you like that kind of thing is worth a look.

. Man, it's a tower defense game.

What do you want me to say? Do you like tower defense games? Yeah, then you'll like this one. Nothing really super innovative or original, which is really the only negative thing I can say about it. But look, it's got solid game play, and that's what you want, isn't it? ISNT IT? Yeah, it is. If you are reading this, your'e already thinking about buying this game right? So, you also already know what to expect from this type of tower defense game.

. Meh.

Maybe other people would like it, but it's not the kind of game for me.. Addictive and really fun and a great idea for VR!

---

People seem to be confusing "Collectors addition" with "Game Of The Year" edition. Please not that this gives you exclusives as a collector. NOT DLC MAPS.. Its a ok game, though I kinda expect more. The text scenes are already tiring since Redemption and the levels are too short. But the huge amount of enemies are good to kill time, I give this 7/10 if rating.. I grab Steam and Metal on 85% discount,

For that price and I can get a game, I think is a Good Game Deal.

Though Steam and Metal it doesn't impress much....on my 1st gameplay.

The game is not that crappy either, is acceptable for what it worth.

Steam & Metal gameplay is pretty barebone, we won't be getting any great or impressive power up.

The shootin not bad; but... just not that adrenaline rush if compare to other in same genre.

The power up just a from single stream of firing mode to triple stream firing mode,

Is has nothing much to offer and make us feel powerful or rewaded to battle the EVIL.

The graphic look pretty neat not messy.

The BGM is pretty cheesy and not bad overall.

The worst or what I dislike about this Steam & Metal,

we can't rebind our key and there is no resolution option, I haz sad.

Although the resolution can't be tuned yet the F.O.V is good with this game,

Unlike some other game that really make us a headache from the view.

About the control,

I has no idea about Keyboard and Mouse but with a 360 Controller, it feel pretty smooth.

I didn't realise there is DEMO for this game before I bought em.

But for the 85% discount and the little fun it haz offer me,

I think is worth to keep it in my library.

Try the DEMO or just bought em for the 75%-85% discount.

. You get what you pay for. It's a short little VN with mediocre visuals, and dialogue that is borderline cringe worthy at moments. The "twist" is surprising, but seems meaningless because there is little to no character development, and absolutely no satisfying explanation of motives.

There are, by far, much better VNs available, but if you must... realize that it may not be up to the caliber of other, more popular VNs.

All things considered, it's still a better love story than [insert painfully obvious pop culture reference of a series of vampire romance novels].. The community makes the game near impossible to enjoy/get into. Will be refunding.. Very addictive game with a dedicated community. Single player is all about beating challenging tracks in a certain amount of time much in the ways of Trials games. Join others in multiplayer and race around some of the coolest tracks made by the community in a race for the best times, some of the tracks gave me that feel of when I was a kid trying to build some badass Hot Wheel tracks. The track editor is amazing by the way. The community is welcoming and friendly, never had any issues. Their is a leaderboard system that doesn't only keep track of you world placing but also you country and local placing. Like Im canadian so it would tell me my rank in the world, Canada, and even my province placing.

<https://www.youtube.com/watch?v=G1KGBPbaaMY>. Maybe a bit expensive for \u20ac9.99, but I'm loving the game, the puzzles, the music, the pixel art and the ridiculous conversations in game. If you like quick wit puzzle games, this is a good one!. its a nice attempt but its just a worse DEEP SPACE WAIFU.. Britain is struck with a zombie plague, and you must lead a ragtag gang of survivors in a search for supplies and your own missing daughter. Why are zombies rising up in Bournemouth? Does it matter?

If you're looking for a first person shooter, this isn't it. This is resource management - maintaining and upgrading your camp, searching for supplies and looking for clues. It can still be quite tense! You may struggle a little with combat at first, and lockpicking takes a while to get the hang of, but persevere and you'll soon be hooked. It's hard to leave your camp when you still need to stock up on supplies and you're only a few materials shy of that next fence upgrade.

Combat is done in an unusual style - rather than simply rolling dice, you have a sort of fruit machine. Spin the wheels and try to score more than your opponent. Score a skull, and you've automatically been hit. But there's a twist - get three skulls and, unless your opponent somehow does the same, you've automatically won.

---

If you don't have the time for combat, you can simply hit the Auto button to resolve combat instantly. And if you never want to do that again, there's always "Visual Novel" mode, in which you focus on the resources and the plot and skip all those pesky puzzles. But why would you do that?

DBA is an unusual and entertaining take on the much-visited zombie apocalypse genre, and a more realistic view of the collapse of civilisation than many. Now I'd best get back to it - the camp's low on food and we've heard rumours of a stockpile nearby.. The local co-op is extremely fun.

I like that the game has features not included in Mario Kart, like damage done to other cars and having to repair them on yours etc. (I think we all know this is a complete imitation of MK, but it does the job as the copy of a for PC users unavailable game.) If you see F1 Race Stars on sale (like I did) buy it, it's worth it.
